

## HTS Mission

God's desire is to see our families individually and collectively reflect His glory through worship and service of Him (Gen. 12:3; Acts 2:39). Though HTS works to this end as an educational ministry, the mission of HTS goes far beyond providing solid academic and elective classes. ***It is our intent to use education--defined as the study of God--as our mechanism and community as our context for discipleship.*** The parents play a central equipping role (Gen. 18:19) in this mission. The HTS ministry is unique in that we desire to minister to the heart of both the children AND the parents! It is the mission of HTS to create a community that comes alongside and partners with families in discipling their children--not merely to "serve the Lord", but to love the Lord their God with every fiber of their being. In so doing, they become missional in their heart for the world around them.
